

HDSA Michigan Support Groups

Macomb County Caregivers Group

The Macomb County Caregivers Group meets the second Tuesday of each month at 4571 Reflections Drive, Sterling Heights, MI 48314 at 7:30 p.m. This group is here to help caregivers maintain their emotional balance. It is a place to share our problems.

Each caregiver has the chance to discuss what is happening with their family and ask any questions they need, without the patient being present. The disease is different with every patient, putting us all together means someone has to have an answer for the day to day problems we encounter.

If you would like a reminder email about the meeting, please send your email address to d_sadlowski63@hotmail.com
